Don, thanks for trying but these are unfortunately no different than what I was able to open yesterday from your WP files. The ag\_urban one doesn't include rationles for most of the urban MMs (which I'm still missing) and the marina\_hydro\_rip one only includes the first marina MM and nothing else so we'll still need to type up the missing rationales as I noted yesterday from the pdf docs. Jayne, if you could work on that, that would be great.

Allison and Jayne,

Here are the old WP files, now converted to Word. Only one looks incomplete to me, but it's mostly there. I was able to resurrect the one that was fully corrupted. As luck would have it, it turned out not to be an interim decision document after all. Rather, it was a dated analysis of Oregon's various programs to improve water quality on a watershed basis.

Don

Allison,

Thanks for this work!

I think I can fully resurrect all but 1 of the documents I sent you. So, let me convert what I can to Word and re-send to you and Jayne. It might help somewhat. It figures that the one that is completely unopenable happens to be the one with most of the rationales in then-final form. Many of the others were just various drafts.

Don

Allison Castellan ---08/29/2012 10:04:12 AM---Jayne, et. al-- Just realized I hadn't saved the most recent version of the consolidated

Subject: UPDATED: Comsolidated rationale

Jayne, et. al--

Just realized I hadn't saved the most recent version of the consolidated word doc when I sent the attachments. Please use this version attached.

Thanks!  
Allison

All--

Here's what I was able to compile from all of OR's interim decision docs. However, many of mine are corrupted so I don't have word versions for a lot of the rationales. Don, the ones you send along seemed to have the same issues--cutting off after only one or two rationales. I've attached pdfs of all our interim decision docs (Feb 2004 and June 2008 coming separately due to file size limits). Jayne if you could work with your typist to add in the other pieces that would be great. I've noted in yellow highlights in the doc which rationales are missing and which decision doc they are from. Once we have a complete consolidated interim decision doc, we can start reading through to flag which sections will need to be updated, etc. We'll likely want to take a stab at streamlining some of the rationales, if possible, as well, since the doc is now up to 25 pg and is still missing some pieces.

This is what I'm missing....

Urban:

1. Watershed Protection and Existing Devel (latest rationale in Jan 13, 2004 doc)

Marinas:

2. Shoreline stabilization, sw runoff, fueling station design, solid waste mngt, liquid material mngt, and petroleum control (latest rationale in Feb 17, 2004 doc)
3. Sewage Facility Mngt and Maintenance (latest rationale in Feb 17, 2004 doc)
4. Fish Waste & Boat Cleaning (latest rationale in Feb 17, 2004 doc)
5. Boat Operation (latest rationale in Feb 17, 2004 doc)

# Ex. 5 - Deliberative

Allison
